FREQUENTLY ASKED QUESTIONS

Do I need prior experience to become a franchisee?

Early childhood education or child care experience is helpful but not necessary. We will train the right people and guide them through the processes needed to open a school and operate it in compliance with local and state regulations and standards.

Where should I locate my business?

Our understanding of the market has enabled us to compile location criteria based upon population, competition, and consumer habits. We will invest considerable time and energy to help each franchisee with the right demographic location, and the steps that it will take to open The Global Child™.

How does The Global Child™ franchise differ from other business opportunities?

Individuals who are considering franchising may look at a number of different opportunities. What sets The Global Child™ opportunity apart is that it offers not only a business opportunity but also a chance to make a difference in the lives of families by providing quality education and care. And we offer a proprietary curriculum that no one else in our industry does as well as access to the founder who has independently opened four locations and has worked in education for over 25 years.

What are the benefits of a franchise vs. opening a business on my own?

Opening a business independently takes time and money and most people opening an early childhood school and care center experience a steep "learning curve." As a franchisee, you'll enjoy name-brand recognition and a network of support. You can avoid that costly trial-and-error period, and instead, "hit the ground running" with our ready-made framework.

What do I do next?

Please take a few minutes and complete the information on the "Preliminary Information Sheet". After reviewing it, we will contact you to set up a meeting if we think it'll be a good fit. Thank you so much for your interest in The Global Child.™
